The Big Prize Fight May Come Off In Lake Michigan

ON TWO RAILROAD FERRYBOATS.

This Plan Is Now Proposed Since the Attorney General of Texas Seems Determined to Stop It in Dallas—The Principals Think the Idea a Good One. Backers Being Consulted.

TOLEDO, July 17.—The Ann Arbor railroad officials here have assented to a proposition made by Toledo sporting men to allow the Corbett-Fitzsimmons fistic encounter to take place on their two big transfer boats, used for ferrying loaded trains across Lake Michigan. The Toledo projectors are now in communication with the backers of the two athletes.

The fact that the attorney general of Texas has taken a step toward blocking the efforts to pull off the fight in that state has given the scheme an impetus. Telegrams have been passing between this city and the backers of the "big six," and unless all signs fail Toledo will play an important part in the biggest fistic battle of the century. The scheme is working beautifully and the details will doubtless be arranged at an early date. "Circular" Joe, Fitzsimmons and Corbett have been consulted and all agree that the Toledo idea is a winner.

If the thing is a success the men will fight near the center of the United States without fear of molestation, but still outside the jurisdiction of the civil authorities. In other words, the fight will take place on Lake Michigan aboard the Ann Arbor transport No. 1 and No. 2 lying stern to stern, forming a space which would allow 4,000 people to witness the fight.

The Ann Arbor people are willing to furnish the boats, as the consequent advertisement, coming at this time, would be an excellent thing for the road. In addition, the Ann Arbor would haul the majority of the people who would witness the fight.

The scheme is to have the boats start out from Frankfort, Mich., and meet beyond the limit constituting the domestic waters of the United States.

The boats would then be anchored, so that the space of the sterns of the boats would be practically continuous.

As nearly everyone in Toledo knows the transports are immense affairs, which have carried freight trains across Lake Michigan during the past two winters without any postponement on account of bad weather or lake ice. They are 260 feet long by 60 feet wide, and were built to ferry 24 cars each across the lake.

The whole thing at present depends upon the acceptance of the proposal by the backers of the two principals. The road management is willing, and the Toledoans interested are amply able to carry out the scheme in good style.

Prominent Toledo sports are backing the movement, and if anything can be done to make the thing a go it will be done. There are hundreds of men in and about Toledo that are eager to have the fight pulled off, and every one of them will be "on deck" if the Ann Arbor plan can be made a go.

STILL TOO MANY COMING.

Thirty-Five Thousand Less Immigrants This Year Than Last.

WASHINGTON, July 17.—A statement of the imports, exports and immigration of the United States during the fiscal year ended June 30 last, shows as follows:

During the fiscal year 1895 the number of emigrants who arrived in this country was 276,136 against 311,612 during the previous year.

Exports and Imports.

Merchandise exported, $807,693,261; last year, $891,907,709. Merchandise imported, $731,960,319, of which about one-half was free of duty. Merchandise imported in 1894, $647,772,017, of which $372,575,931 was free of duty. The gold coin and bullion exported during the last fiscal year amounted to $66,131,188, and the imports $35,984,449. The exports last year, therefore, was $30,984,449 in excess of the imports. In the previous year the exports exceeded the imports by $4,528,942. The exports of silver during the last year aggregated $49,236,613 against $9,518,928 in imports. This is a slight falling off from both the exports and imports of the previous year.

May Fight the Taxes.

AKRON, O., July 17.—The value of personal property returned to assessors by Summit county taxpayers is $190,000 less than last year's valuation. The board of equalization considers this reduction excessive, and has raised returns to the extent of $140,000. The retrenchment in valuation returns was made principally by manufacturers and farmers, and there is talk of an organized movement to resist the board of equalization's increase.

Whole County Burning.

SACRAMENTO, July 17.—It is reported that a large stretch of country, 15 miles from Vacaville, is on fire and great danger threatens the farmers of that vicinity. The fire is beyond control and is sweeping everything before it. Later reports from Vacaville state that the fire is growing to enormous proportions and traveling rapidly in the direction of the town. Parties of men are starting to endeavor to check its progress.

Terre Haute Miners Resume.

TERRE HAUTE, Ind., July 17.—At a meeting of miners at Clinton it was resolved to accept the Terre Haute agreement and go to work at 51 cents per ton. The vote was 12 to 18. Something like 75 miners thereupon went into the mines, the first time they have been there since April 21.

Cashier Missing With Money.

RICHMOND, Mo., July 17.—The Farmers' bank of Orrick, situated 10 miles southwest of Richmond, is in trouble. Its cashier, L. T. Parish, is missing, and it is reported that from $15,000 to $20,000 of the bank's funds are missing.

Terms Refused.

NEW YORK, July 17.—The Herald's correspondent in Rio Janeiro telegraphs that the cabinet will not accept the [illegible] bonds in the state of Rio Grande do Sul

USED WOMEN AS SHIELDS.

How Five Outlaws Escaped From a Posse in Oklahoma.

HENNESSY, O. T., July 17.—The posse of farmers organized at Sheridan to capture Yeager's gang of horsethieves found the trail 25 miles west of Waukomis and ran part of the gang to cover in a log house. They surrounded the house, captured the desperadoes' horses and saddles and some arms. After 20 hours' siege, the outlaws, five in number, forced two women living there to walk ahead of them as shields to keep the posse from shooting, and each drawing a brace of revolvers they made their escape to the heavy timber, firing a number of shots to keep the posse from pressing them too closely. They released the women after making them walk over a mile, and stealing horses from farmers made their escape. They headed for their rendezvous in a section of Okes mountains known as the "Boot," where they are known to have a fortified stronghold. The posse is still determined and is being recruited daily.

PENSION DECISIONS.

Assistant Secretary Reynolds Renders Three Important Ones.

WASHINGTON, July 17.—Assistant Secretary Reynolds has rendered three decisions in pension cases.

In the first he holds that while the commissioner of pensions is forbidden by law to suspend payment of a pension pending proceedings to annul or reduce it, nevertheless, in case such pension is annulled all unpaid pension apparently accrued at the date of annullment becomes illegal and must not be paid.

In the second case the secretary holds that the law forbidding the commissioner to reduce pensions without 30 days notice does not apply to cases acted on before its passage.

In the third case it is held that as the act pensioning the children of a soldier who are under 16 years of age expressly provides that the pensions shall begin from the date of filing the application for the pension, a claimant who was over 16 years old when the act was passed has no claim for pension at all.

WORKED LIKE A CHARM.

Practical Test of an Electric Locomotive In Baltimore.

BALTIMORE, July 17.—All possible question of the ability of electric locomotive No. 1 of the Baltimore and Ohio railroad to pull the heaviest trains through the Belt line tunnel was disposed of yesterday. With the tremendous load of 29 freight cars, all laden, and two locomotives, the electric monster pulled through the tunnel with not nearly all power on. This test of the locomotive was the most important that has been made. The load pulled was at least 2,800,000 pounds. The two steam engines which were attached to the train joined their forces when the electric locomotive was detached to take the train on its journey east.

OLD COUPLE TORTURED

By a Quartette of Masked Men Who Secured But $13—No Clew.

ASHLAND, O., July 17.—Late Monday night four masked men went to the house of John Miblin, living a few miles from this place, and on being refused admittance battered down the door with a fence rail. The men then bound and gagged Miblin and his wife and on failing to find the amount of money they believed to be in the house they tortured the couple, holding burning matches to their feet and hands. The robbers secured $13, all the money in the house. Miblin and his wife, who are both very old and almost blind, did not succeed in releasing themselves until 9 a. m. There is no clew to the identity of the robbers.

Second Coming of Christ.

PITTSBURG, July 17.—Arrangements are being made for a convention in this city for the study of the Bible prophecies in in regard to the second coming of Christ. Rev. W. G. Moorehead, D.D., of Xenia, O., and Rev. W. J. Eardman, D.D., of Philadelphia, have been appointed to correspond with prominent ministers and if possible secure their services.

A Revenue Launch Missing.

PORT TOWNSEND, Wash., July 17.—The revenue launch Black Pup has been missing for several days. She left Roche harbor last Thursday bound here, but nothing has been seen of her.

The Ariel Safe.

RICHMOND, July 17.—The steamer Ariel, reported sunk in the James river with a crowd of colored excursionists, arrived safely at Petersburg. It was delayed by the storm.

Acquitted of Killing her Husband.

LA PLATA, Md., July 17.—After being out an hour the jury in the case of Mrs. Belle Farrell, charged with murdering her husband by poison, returned a verdict of not guilty.

Climbed the Matterhorn.

BERNE, Switzerland, July 17.—An American named Zermatt Parkett has accomplished the ascent of the Matterhorn, over 14,700 feet above the level of the sea.

Tunnel Caves In.

MIDDLESBORO, Ky., July 17.—The Cumberland Gap tunnel has again caved in and all traffic east from this point is suspended.

LONDON, July 17.—The Times announces that Valkyrie III sails for New York Saturday.

TELEGRAPHIC BREVITIES.

Interesting Items From Everywhere Expressed In a Few Words.

A test of compressed air for rapid transit cars will soon be made in Baltimore.

At Jonesboro, Ills., a family of movers ate poisonous toadstools for mushrooms. Three of the children died.

Customs officials at Detroit have discovered that Chinese have been smuggled across the line in sleeping cars. One was headed off Tuesday night.

In Philadelphia James Connor, 24, shot and killed Kate Conley, 19, and then shot himself as the result of a lover's quarrel. The girl may recover, but Connor can not.

A Grewsome Night Ride.

The approach of the thirty-first anniversary of General James B. McPherson's death recalls with melancholy interest an incident narrated by the late Secretary Gresham. General Gresham told the story the evening before he was stricken with his last illness, then little thinking that he himself was soon to join the choir invisible.

McPherson was killed July 22, 1864, near Atlanta, it will be recalled. General Gresham commanded a division in the Army of the Tennessee. Gresham was badly wounded. McPherson helped to lift him upon a stretcher with his own hands and sent his staff surgeon to attend the case. With good wishes for Gresham's speedy recovery he bade him goodby.

Gresham was carried to a little railway station to wait the coming of a train. He lay meanwhile upon the stretcher in the broiling sun, suffering terrible pain. After he had been there several hours he observed that a wooden coffin was brought and placed beside him. He observed too, rather strangely, that a member of McPherson's staff was in charge of the men that guarded it.

"Whose coffin is that?" asked Gresham. The answer was, "It is McPherson's."

McPherson was the dearest friend Gresham had in the army. With grief and pain of his wounds he said he thought he must take leave of his reason. But more was to come. The train arrived finally. In a box were placed Gresham on his stretcher and the coffin of McPherson. An Irish soldier and a single officer in charge of the body were all the others in the car. It was night as they sped along on their grewsome journey, and the only light in the car was a tallow candle in one corner. The soldier continually grew sleepy and nodded over. The officer rapped him sharply over the head to wake him. Through the long night hours this programme was repeated regularly, the soldier nodding off to sleep, the officer cuffing him to wake him again. The humor of the thing finally grew on Gresham even in that terrible hour. When at last the soldier nodded over against the one candle, knocking it down and putting out the light, Gresham laughed aloud, and he always believed that saved his life.

The general fall in prices of all kinds of commodities in this country between 1873 and 1894 was 43 per cent. It is interesting to note that wheat fell 62 per cent, nearly 20 per cent more than the general average, showing how the sudden opening up of the great wheatfields of the northwest for a time glutted the world's markets and drove prices down. Meat foods, on the other hand, fell off during the periods named only 27 per cent, indicating, if meat producers had had the intuition to discern it, that the population was increasing faster than the beef, mutton and pork supply. The fact that for a year or two beef cattle were very low in price does not alter the general conclusion. The demand for animal food of all kinds, both meat and dairy products, is still crowding the supply very close. Next to animal products the articles that fell off least in the general decline were tea, coffee and sugar, 39 per cent. Textile fabrics declined nearly half, while metals and minerals in general, owing to the unprecedented discoveries of rich silver and other mines in the west, declined 56 per cent, nearly as much as wheat.

The horned toad of California beats the world as an insect destroyer. The multifarious pests that infest garden vegetables disappear before it. It is said the toads can be trained to do their work with lightninglike rapidity. Where is the genius who will raise up and train a toad or something else that will rid the land of mosquitoes?

THE WEATHER.

U. S. DEPARTMENT OF AGRI. WEATHER BUREAU. TOLEDO, O., JULY 17, 1895.

(Special.)—7:00 a. m. temperatures.—Toledo 76 degrees, New York 70 degrees, Cincinnati 78 degrees, Chicago 70 degrees, St. Louis 82 degrees, Pittsburgh 74 degrees, St. Paul 64 degrees, Jacksonville 80 degrees.

SYNOPSIS.

The storm area has advanced slowly eastward and this morning is central north of Lake Huron. A second storm area covers the eastern Rocky Mountain slope. An area of high barometer is advancing from the extreme northwest, which will cause cooler weather over the entire northwest during the next twenty-four hours.

The temperature has risen over the lake region, Ohio valley and Tennessee and has fallen over the west and northwest. In all other sections it has remained nearly stationary. Temperatures over Iowa, Kansas, Nebraska and Wisconsin, yesterday ranged from 90 to 100. Conditions are favorable for continued warm weather to prevail over this section until to-morrow night, when it will become cooler.

During the past 24 hours rain has fallen over portions of the Atlantic coast States, Indiana lake region, and from Iowa, northwestward. Conditions are favorable for local showers and thunder storms for this section during the next twenty-four hours.

Brisk winds are indicated for the lakes to day and to-morrow.

E. A. HANNAH, Observer.

CROP REPORT.

What the Condition is in Northwestern Ohio.

The official crop and weather report for the past week, northern section of Ohio, says: "The drouth continues, and no rains of any consequence have fallen during the week. The days have been warm and the nights cool. Wheat is nearly all harvested, and threshing has begun; yield variable. Haying is nearly completed, and the crop has been secured in good condition, but with a light yield. Oats are turning rapidly, and a few have been cut. The yield of clover seed is good in some counties, and nearly a failure in others. Corn is holding its own very well considering the dry weather, and on low black ground is looking well. Potatoes are showing the effects of the drouth and are not growing much, although the tops look promising. Gardens and pastures are badly dried up, and stock water is becoming scarce; many are feeding stock. Apples continue to fall badly, and much of the small fruit is drying up.

OIL AND GAS.

DELPHOS OIL NEWS.

A new rig is going up on the German farm, just east of the Miller farm.

Three new rigs are under construction on the Arnold farm, south of the Shenk leases.

Goodkind, of Spencerville, is putting up a derrick on the land adjoining the Arnold farm.

The Shenk company has a complete new pumping outfit at No. 2. The well is now doing about 15 barrels per day and increasing steadily. The hole will be drilled deeper in the hope of still increasing the output.

The Shenk Oil company have located well No. 4 six hundred feet northwest of No. 3, on the C. P. Miller farm. The rig is being built and drilling will be commenced as soon as the drillers are through with No. 3.

In the vicinity of Landeck rigs are as thick almost as bees. This little old-fashioned town is getting a great hump on itself, and if we mistake not will soon be enjoying a boom of no small proportions. The hotel and tavern keepers are right in the swim.

At Shenk well No. 3 the sand was reached, and the well would have been drilled in, but the tools became stuck in the sand and much difficulty was experienced in getting them out. The drill has not been started again at last accounts. The well shows good sand, and the prospects for oil are excellent.

The Jones gas well is being fixed up to be sold to the Standard people, and the gas will be turned into the Delphos mains. There is 800 feet of tubing in the bottom of the hole which will be fished out. The well spouts one hundred barrels of water an hour, and so great is the force of the gas, a nail keg is blown to pieces when the valve is turned.—*Herald.*

BUCKEYE'S STATEMENT.

Stimulated by the active pushing of the drill and the price paid for the product the Ohio and Indiana oil operators have been steadily increasing their output and the stocks in iron tanks. The statement made by the Buckeye Pipe Line company shows a gain of 261,604 barrels during the month of June. The net amount of stocks on hand at the close of June was 20,314,230 barrels, which is very close to the amount stored at the beginning of of 1892. May's increase was 328,912 barrels. From November last until March, an exchange says, the tendency had been toward a decline, but this has been overcome and stocks are now on the increase. The April increase was 199,252 barrels, while March showed a reduction in stocks of 118,407 barrels. The February decrease in stocks was 255,508 barrels. The reduction of the net stocks during January was 259,888 barrels, and in December the decline was 137,000 barrels. The daily average runs of the Buckeye Pipe Line for the past ten months have been as follows: June, 51,374 barrels; May, 49,709 barrels; April, 46,847 barrels; March, 41,656 barrels; February, 36,764 barrels; January, 39,156 barrels; December, 42,786 barrels; November, 44,478 barrels; October, 43,324 barrels; September, 44,178 barrels, and August, 47,399 barrels. The June runs were greater than for any month in the past several years, and 8,720 barrels a day in excess of the shipments. The May runs were 10,690 barrels a day more than the shipments. The June shipments were 42,654 barrels a day, a gain of 6,555 barrels on those of May. The May shipments averaged but 36,099 barrels a day and were lowest recorded in seven months. The April shipments averaged 40,208 barrels a day. The shipments for March were 45,476 barrels a day. The February shipments averaged 46,060 barrels, and the January shipments 47,540 barrels a day. The December shipments averaged 47,212 barrels and the November shipments were 42,862 barrels a day.—*Toledo Blade.*

The main office of the Ohio and Indiana Torpedo Co. has been moved Toledo. The branch office in the Cincinnati block will remain open for business as before. 3-3t

The sixty-second birthday anniversary of Henry Castle, the veteran blacksmith at the Ackerman & Castle tool works on east Elm street, was celebrated in a novel manner to day. The employes, having ascertained the fact that to-day would be Mr. Castle's anniversary, determined to make the event a memorable one and also demonstrate their mutual respect for their fellow workman. Consequently, when the unsuspecting Mr. Castle entered the department early this morning he found the place tastily decorated. Almost before he realized the cause for the unusual decorations he was warmly and heartily congratulated by his fellow workmen, who then presented him with a costly pair of gold eye-glasses. Mr. Castle fully appreciated the token and thanked the men for the consideration. The informal programme of the event was concluded with a vocal selection rendered by George Seiferd. The affair was a novel one and heartily enjoyed by the participants. Notwithstanding his advanced age, Mr. Castle is hale and hearty, and can wield the sledge as effectively as those many years his junior.

What a wonderfully popular thing is the bicycle. The two great "meets" of the year—that of the Chicago clubs on Memorial day, and the sixteenth annual gathering of the L. A. W., which has just closed at Asbury Park—indicate the phenomenal growth of interest in this vehicle of sport and recreation. Very little has been said of the money involved in gratifying this comparatively new indulgence. A paragraph which has been going the rounds states that there are at present in the United States twenty-three factories engaged in the manufacture of wheels, and that the output for this year will reach 500,000 complete machines. Assuming the figures to be correct, and taking the average price of each bicycle at $75 to the buyer, it will be seen that the expenditure of this amount will reach the enormous total of $37,500,000 for 1895. Up to the present time the principal makers have succeeded in maintaining high prices for their products, but it is probable that, as was the case with the sewing machine, increasing competition and the expiration of patents, not to mention cheapening processes, will combine to bring the price of the wheel within reach of the people of restricted means, who are now forced to forego the pleasure and benefit of its use. What the ultimate effects will be on street car traffic and livery business cannot be calculated.

AMONG THE RAILROADS.

RAPIDLY IMPROVING.

Word from Hot Springs, Ark., states that passenger conductor James Dolan, of the L. E. & W., who went there a few weeks ago for his health, is rapidly improving and will soon be able to return home. Dolan lost his appetite before going away and he now states that he eats every thing from lobster salid to an Arkansas cactus.

NOTES.

Engineer Swartz, of the C. & E., is running engine 103 on the west local.

Brakeman Vaughn, of the L. E. & W., is running in brakeman Erwin's place with Conductor O'Donnell.

The *Railroad Gazette* computes new orders for freight cars so far this year at 25,000 cars, cost $10,000,000.

East-bound passenger train No. 2, due to leave here at 7:05 o'clock on the L. E. & W., was an hour late last night.

Conductor Gibney, formerly of the west local on the C. & E., is now running through freight trains on this division.

A receiver has been appointed for the Humeston & Shenandoah. The road is 112 miles long, stock $1,026,000, debt $2,800,000.

Fireman W. S. Finicle, of the C., H. & D., who has been laid up several days with a sore back, has resumed his run on the south local.

A receiver has been appointed for the Bellaire, Zanesville & Cincinnati. Length of road 112 miles, capital stock $1,627,910, debts $1,000,000.

Geo. Deal, recently on the C. J. & M., is now at Lima and has charge of a switch engine in the C., H. & D. yards at that place.—*Van Wert Bulletin.*

The Pennsylvania has sold $5,000,000 consolidated 3½ per cent. fifty year mortgage bonds, to retire maturing issues bearing a higher rate of interest.

A modification of the Valley R. R. company's reorganization plan has been proposed by increasing the guaranteed gold bonds from $5,500,000 to $6,000,000.

The New York & New England has been sold under foreclosure to the reorganization committee for $5,000,000. The new company will be put in full control of the property at an early day.

A conference between J. Pierpont Morgan and the Reading reorganization committee was recently held, and some active movement to relieve that company from its financial difficulties is expected.

The passenger department of the Pennsylvania says that travel from Philadelphia to Cape May and Atlantic City this season has thus far been fully 20 per cent. heavier than in the corresponding weeks of 1894.

Frank P. Sargent, grand master of the Brotherhood of Locomotive Firemen, was in Terre Haute on Saturday, and reported the order in a flourishing condition and the membership about up to the number enrolled prior to the Debs strike.

E. A. Ford, general passenger agent of the Pennsylvania lines west of Pittsburg, and of the Vandalia, who has been west several days, has returned to Pittsburg, and expresses himself as well pleased with the manner in which the business of the two systems is now being handled.

The summer Girl's Complexion.

A delightful and simple and soothing lotion for the skin is witch hazel and cold cream, and as the summer girl's complexion must be as soft and clear as her skill at athletic sports she should carry some of the cream in a dainty china box when she goes away.

An ounce each of white wax and spermaceti and one quarter pint oil of almonds. Melt, pour the mixture into a marble mortar, which has been heated by being immersed for some time in boiling water, add very gradually 3 ounces of rosewater and an ounce of witch hazel and assiduously stir the mixture until an emulsion is formed, and afterward until the mixture is nearly cold.—Chicago Tribune.

OFFICIAL CALL

And Apportionment for the Democratic State Convention.

ROOMS OF DEMOCRATIC CENTRAL COMMITTEE, 13½ SOUTH HIGH STREET, COLUMBUS, OHIO, July 2, 1895.

At a meeting of the Democratic State Central Committee held at Columbus, Ohio, on the 25th day of June to fix the date and place of the State Convention, it was ordered:

That the date of said Convention be fixed for Tuesday and Wednesday, August 20th and 21st, 1895.

That the place of meeting be Springfield, Ohio.

The District Caucuses will be held on the afternoon of August 20th, at such an hour and at such places as may be fixed by the Committee of Arrangements.

The Convention will meet for temporary organization and to receive the reports of the district meetings at 10 a. m., August 21st.

A resolution was adopted by the Committee directing that in any county where either the Democratic County Central or Executive Committee cannot agree upon any question affecting the interest of the party the member of the Central Committee for the district in which such county is situated be authorized and empowered to cast the deciding vote in such committee.

The ratio of apportionment and representation in said convention was fixed at one delegate for every 500 votes, or any fraction of 250 or more votes, cast for President at the November election in the year 1892. Under such apportionment each county will be entitled to the following number of delegates:

M. A. SMALLEY, Chairman.
WALTER A. THIEME, Secretary.

A United States army officer is reported to be on his way to Canada to study the fortifications along the frontier and to report his observations to the War Department at Washington. This is the third time that such an experiment has been tried, and on each of the earlier occasions the officer was detected and foiled in his attempt. From the publicity given to this latest enterprise, it is not at all likely that it will be any more successful than were the others.

It is only natural that the North Pole should receive attention at the hands of the world's geographers who are to meet in convention in London on the 26th inst. It invariably gets more attention than any other part of the earth's surface. The geographers, however, propose to avoid any imputation of partiality in the Pole business by advocating another expedition to the South Pole, or as near to it as it may be possible to get. This will certainly be a relief; for the North Pole has already received more notice than it is worth, and this at the expense of its foggy southern sister, which latter has for many years been sadly neglected.

One of the striking incidents of the revival of activity in every branch of the iron industry is the remarkable advance in the prices of the stocks of some of the large iron and steel manufacturing companies during the past five months. The market price of the shares of one large Southern company has advanced from $15 to $30 50; that of one of the largest Western companies from $43 to $75; another Western corporation from $24 to $31; a Minnesota iron ore mining company from $10 to $35, and one of the largest Pennsylvania companies from $14 to $63, the latter advance having occurred in the last two months. Something more real than promising prospects is required to lift the values of investment securities to such a height. More business, better prices and larger profits were the influences that pushed up these prices.

Experience has amply demonstrated the efficiency of the compartment system of marine construction as a safeguard against the dangers of collision, and the ordeal of internal fire through which the French steamship Normandie passed last week showed how fully compartment walls protect vessel and cargo from perils within. For fifteen hours the crew of the Normandie poured streams of water into a freight compartment filled with burning merchandise, and the steamer entered port with no damage beyond what had occurred within the narrow limits of the freight chamber. Bulwarks that kept water out and fire within afford to modern steamships protection from the two dangers most dreaded by the mariner—foundering at sea, and fire in midocean.

At no time in its history has this country been in such an advantageous position with regard to export trade as at the present time. The existence of productive capacity in excess of home demands enables our manufacturers to turn their attention to the other markets of the world. China and Japan give promise of unprecedented internal development as a result of the awakening influence of the recent war. More freedom in trade relations with China should enable our merchants and manufacturers to send to that country a larger share of our products than has ever been possible. There is no question that a careful study of the requirements of the Chinese trade, and an effort to meet its wants, would bring very satisfactory results to American exporters. We are foot free in this race, and should make a lively dash eastward.

Fag End Foolishness.

Dr. Max Nordau, a learned German of the Jewish race, delivered himself some time ago of a salty screed against the universal degeneracy of mankind at the close of the nineteenth century. Morality, religion and intellect were afflicted with a poisonous mildew previous to dropping to pieces through decay. In every aspect in which you could view him the fag end of the century man was a bad lot, quoth Dr. Nordau. Immediately on the publication of his bilious ebullition Nordau was attacked by critics on all sides. They argued away the slimy green and yellow fiction of the time and stood up for the march of progress all along the line. Now Dr. Max comes back at his critics one and all and declares more vigorously than ever that the human race is tobogganing down hill to destruction at breathless speed.

Well, it is not true. Many instances of degeneracy come to the surface, but they are no more a type of the race than the cheat that is found in wheat is to be taken for the wheat.

The truth is that never before were there so many efforts to improve the race as there are at present. We defy Dr. Max Nordau or anybody else to lay his finger on a time in the world's history when the people themselves were studying with such interest and intelligence the great moral and economic problems of society. That is the most cheering indication of any. What other people do for him counts for nothing in the development of the individual. It is only what he does for himself, although others may sometimes give him hints on how he may help himself.

The race is improving physically. Young American women especially are taller, handsomer, healthier and stronger than those of a generation ago were. There never was a time when fatal contagious, epidemic and other diseases were so nearly within control of science. Even consumption and cancer will be curable henceforth. Civilized physical and moral culture is remodeling the race. In the field of mere benevolence the wealthy and the wise never before exerted themselves so greatly to assist those less fortunate. There is not half or quarter so much wickedness in the world as there is good. If there were, then there would be more thieves and murderers than honest people, and the race would quickly destroy itself.

No. At all times there is vastly more power in good than in evil. Moreover, there is not half so much evil at present in the world as the pessimists try to make us believe. Let us do as we would be done by, love our neighbor as ourselves, keep our souls and bodies clean and thank heaven that we are alive at the end of this glorious nineteenth century, hoping at the same time to get a peep at the still more glorious twentieth century.

All doubts as to the possibility of constructing electric locomotive engines of size sufficient to haul any train have been set at rest by the one now in use in the railway tunnel at Baltimore. It weighs 96 tons. Few steam locomotives have been made that were heavier than this. Other things being equal, a locomotive's hauling strength depends on its weight. Eight driving wheels are required to propel the Baltimore giant. It is 14 feet high and 35 feet long. It is one of the most powerful locomotives of any kind ever constructed.

When you endorse for a man or lend him money or invest in a risky speculation, think first whether you can afford to lose the money out and out. If you conclude you can, then go ahead.

It is Known By Its Cures

It is not what we say, but what Hood's Sarsaparilla does, that tells the story of its merit.

The thousands of people whom it has raised from disease and despair to happiness and health, are the strongest and best advertisements Hood's Sarsaparilla has. No other preparation in existence has such a record of wonderful cures.

This is why Hood's Sarsaparilla has the largest sale, and requires for its production the largest laboratory in the world.

Now if you need a good medicine, why not try that which has done others so much good. Remember

EL PASO, Tex., July 17.—Twelve square miles in East El Paso are under water, causing $15,000 damage. Traffic over the Southern Pacific has been entirely blocked for 24 hours. The freshet, however, which was caused by heavy rains in New Mexico, is now receding.

Class A Record Broken.

LOUISVILLE, July 17.—William Sherrill yesterday rode 30 miles at Fountain Ferry track in 55 minutes paced by Seaton and Lee, on singles. This breaks the Class A record, but is unofficial, as there was no League of American Wheelmen sanction.

Nebraska Regular Democrats.

OMAHA, July 17.—The regular Democratic state central committee met and set the date for the state convention, Aug. 22, at Omaha. They invited Secretary Carlisle to address the convention. This is the free silver wing of the party.

Twenty-Five Years For Brusseau.

DETROIT, July 17.—William Brusseau, the accomplice of Mrs. Nellie Pope in the murder of Dr Horace N. Pope, on Feb. 2, was sentenced to 25 years' imprisonment in the prison at Jackson.

HORRIBLE FATE.

Mother Fatally Burned Trying to Save Her Child—Both Dead.

BARNESVILLE, W. Va, July 17.—While Mammie Floyd, 9, was playing around a stove her clothing caught fire and she was burned to a crisp. Her mother, in attempting to quench the flames, was so terribly burned that she died in a couple of hours. The house took fire and was entirely consumed, but Mrs. Floyd was able to crawl out of the burning building.

Three Banks Burst In a Week.

CARROLLTON, Mo., July 17.—Upon applicaiton of Assistant Attorney General Jordan the bank of Norborne has been placed in the hands of a receiver. The Carroll County bank, located at Dewitt, has also met the same fate. This makes three bank collapses in this county within one week. Every other bank in the county is in first class condition.

Quarrel Ends In Murder.

BRADFORD, Pa., July 17.—At Cole Creek a man named Button, 60, discharged the contents of a shotgun into the abdomen of Leo Phillips, 19. Phillips may die. Both men had been quarreling over money matters.

AUTHORS AND MARRIAGE.

The Single State, It Is Said, Is the Best For Literary Men.

When we compare the restrictions of married men with the opportunities of the bachelor, we see that the latter has well nigh boundless possibilities for going into the social world. He has scores of invitations which will never reach his married friends, and he is generally sought after in society until he is almost threescore and ten. Even married women are more interested in him, whether they have a candidate for his hand or not. They talk with him on a wider range of subjects, in which they know he is surer to be interested than those whose chief thoughts are wrapped up in their families. He may have no more invitations to the most notable gatherings than famous married men, but it is in the less pretentious places that most is learned of human life, and he can call where husbands cannot, and so easily study types denied to them. The world lies open in all directions to him. He is not tethered to a stake. He wishes to study the society of a certain city, to write a novel with a local flavor, and he removes there at his own sweet will. He stays abroad as long as he likes, and if he wishes to study the lower classes there he can live in lodgings among them where he would never take his wife.

When we come to investigate the lives of the greatest authors, we shall find that the majority either did not marry, or they were unhappily mated, and hence thrown on the world for consolation and enlargement of knowledge, or they laid the foundations for greatness before marriage.

Among those we may mention in the class of unmarried authors are Alexander Pope, Thomas Gray, Oliver Goldsmith, Edward Gibbon, Charles Lamb, Lord Macaulay, Washington Irving, Wilkie Collins, Charles Reade. We ought also to add to this list the giant satirist, Dean Swift, for he never lived with his wife, and Lord Byron, who had only about a year's experience of married life.

We find some great names among the list of the unhappily married. The most enthusiastic advocates of matrimony could scarcely have the assurance to say that it aided or was anything else than a clog to Chaucer, Shakespeare, Dickens or Thackeray.

It would be wearisome to give the names of all those authors who laid the foundations of greatness before marriage, and we shall instance only Milton, Goethe and Dante.—Mid-Continent.

Tennyson's Gruffness.

There are many stories of Lord Tennyson's peculiar gruffness of manner. On one occasion he was at a garden party, and somebody offered him a sandwich. He was laboriously munching this when the hostess rushed up to him with anxious inquiries about his health and entertainment. "Thank you, madam," he said. "I am eating a sandwich. Are your sandwiches usually made of old boots?"

WILD BILL'S HANDIWORK.

A Lasting Memorial of the Desperado's Skill With the Pistol.

On the west side of Market square in Kansas City stands a three story front of buildings known locally as Battle row, from the pugnacious bent of the inhabitants. These lapse into brawls and chance meddle encounters with an ease which should alarm. Up under the cornice of one of the buildings is an Odd Fellows' sign, "I. O. O. F." If one's eyes are sharp, the white paint interior of the first O will show a huddle of gray, weather hued spots very well in the center of the letter. They are the handiwork of that long haired gentleman of the border, Wild Bill.

It was back in the middle seventies when Wild Bill, "by request," and merely to show his witchlike skill with those weapons, stood across the street, fully 100 feet away, and with a 45 caliber Colt's pistol in each hand put all the 12 bullets into the center of this "O." He fired the pistols simultaneously, and the 12 shots made only six reports. The town was smaller at that time and in the interest of science didn't mind a little racket now and then. So Wild Bill's exhibition of crack pistol shooting excited nothing but compliment. Indeed Speers, chief of police then, as well as now, was one of the most interested lookers on, and emphatically indorsed the exhibition as one of the most skillful tricks with pistols it had ever been his luck to see.—Washington Star.

Comfortable Summer Underwear.

Summer underwear should be at once healthful and comfortable, writes Isabel A. Mallon in The Ladies' Home Journal. It needs to have a certain quality of lightness in weight, and yet it must be sufficiently warm to keep one from getting that very undesirable illness—a summer cold. The fact that even the lightest of cotton gowns is lined has made the elaborately trimmed underbodice of little use, and when such bodices are worn they are made quite plainly, being in reality nothing more than well fitted corset covers. A lightweight cambric without dressing, and which is known in England as "long cloth," is greatly liked for summer underwear, as it is quite as cool as linen and does not tend to give one even the momentary chill which is the peculiarity of linen. This cloth is used for nightdresses, drawers, wash petticoats, and, if they are worn, chemises. These last are seldom seen, the knitted cotton or silk vest being better liked and cooler.

No More Crinolines.

We had hoped better things of fashion, but nothing seems able to stop her on the road of extravagance down which she is slipping. Skirts and sleeves are becoming more and more ample. Skirts are pyramidal, and a large sized pillow would hold within the folds of a balloon sleeve. One thing, however, saves modern fashions from being utterly ungrateful—stiffness is banished, skirts hang in soft folds, and sleeves are loosely draped without a soupcon of crinoline or buckram. In fact, in this consists the novelty of the season's toilets. They repudiate all stiff linings, and the triumph of a good modiste is to accumulate hollow plaits and drooping folds without the aid of any artificial support. Of course there must be underskirts, and we shall certainly see a return to flounced starched petticoats, but the dress itself stands on the strength of its own material. The only linings used are thin silk or satinette.—Young Ladies' Journal.

OHIO NEWS NOTES.

The Nichols State Law Is Held to Be Valid.

A THRESHER ENGINE LETS GO

Killing Two Men, Fatally Injuring Another—Wheat and Machine Burned. Harbor Improvements Recommended at Twelve Lake Ports Miami County Democrats Declare In Favor of Silver.

CINCINNATI, July 16.—Judges Lurton and Taft have held the Nichols state law valid, and sustained the state auditor, treasurer and attorney general, the state board of appraisers, in the assessments for taxes made under the Nichols law on telegraph and telephone and express companies. This law has been contested in the state and lower courts and is now settled by this decision of the United States court of appeals. It involves large assessments from the companies to the state.

OHIO LAKE PORTS.

Harbor Improvements Recommended at Twelve Places.

WASHINGTON, July 16.—The report of Lieutenant Jared Smith, in charge of the corps of engineers for river and harbor and improvement on Lake Erie, west of Erie, makes recommendations for improvements at 12 ports.

For the improvement of the harbor at Toledo, the engineer shows considerable progress on the work of deepening the channel, with a balance of $34,000 available July 1, to continue the work. Statistics are collected showing the increased business of the harbor.

Up to June 30, 1895, $73,315 had been expended in work on the harbor at Port Clinton, O., leaving a balance of $6,300 available.

THRESHER ENGINE EXPLODES.

Two Men Killed and One Fatally Injured. Great Damage by Fire.

WAVERLY, O., July 16.—A terrific explosion took place on Frank Will's farm at Sunfish creek, about 20 miles from this place. A thresher traction engine exploded and Taylor Unfer and Charles Willis were both killed by flying pieces of iron. The engineer, George O'Brien, was scalded so that he will probably die. The explosion set fire to the wheat stack and 300 bushels of wheat, together with the threshing machine were consumed.

Declare For Silver.

TROY, O., July 16.—The Democratic county convention met here. The resolutions provided for the restoration of silver to the place it occupied previous to 1883 and a coinage at the ratio of 16 to 1. The names of President Cleveland and Senator Brice were not mentioned, the resolutions being a compromise in this respect. Republican extravagance was denounced and Democratic economy and policy were commended. The ticket was but partially filled.

Distillery Property to Be Sold.

CINCINNATI, July 16.—When Receiver McNulta last Thursday filed a petition for the sale of the Hobart & Mattox and the consolidated distilleries, located near here, Judge Taft gave till yesterday noon to hear from creditors and others interested. No notices were received, and in the afternoon Judge Taft ordered the properties sold under the petition.

Boy's Bad Fall,

CELINA, O., July 16.—Fred Schmitt, 16, fell from the Catholic parsonage to the ground, a distance of 22 feet, yesterday, breaking his left leg, right shoulder, and dislocating his jawbone. His wrists and other joints were also injured. He was painting the roof and his footnold broke. His recovery is doubtful.

Whittled a Stick of Dynamite.

LANCASTER, O., July 16.—Pearl Daum, 12, together with a companion, was strolling about the Industrial school stone quarry when the former picked up a stick of dynamite and began whittling it. An explosion followed, which mutilated his hands to such an extent that the left one had to be amputated.

Suffocated In a Well.

GNADENHUTTEN, O., July 16.—George Robison of Maple Grove attempted to clean out a 20-foot well and was overcome by foul air. His son descended to rescue him and fell over his father's dead body unconscious. A son-in-law finally got out both bodies. The son will possibly get well.

Robbers Make a Haul.

BELLAIRE, O., July 16.—During the fire at the Baltimore and Ohio railroad icehouse here robbers entered the stores of Sanberg & Newark and Mrs. Sarah McKelvey and carried away over $1,500 worth of merchandise. Some was recovered.

Oil Gusher.

BELLAIRE, O, July 16.—The Alfred Brothers & O'Hara well, located on the Lewis farm, near the Freden well, in Monroe county, south of here, on the Ohio river, came in unexpectedly and is a gusher, doing 150 barrels per day.

Watchman Murdered.

CLEVELAND, July 16.—The dead body of Patrick Cooney, a Cleveland and Pittsburg railway night watchman, was found in Whisky island. The head was crushed in and other marks on the body indicated murder.

Burglary at Wooster.

WOOSTER, O., July 16.—Burglars broke into Joseph Wilhelm's grocery store and carried away a large amount of his staple stock. This makes the fourth time his store has been burglarized the past year.

Back Broken.

STEUBENVILLE, O., July 16.—Mike Mercer, an employe at Mingo steel plant, had three ribs and back broken by casting falling on him. His recovery is doubtful.

Fatally Cut.

GALLIPOLIS, O., July 16.—William Hess cut Mason Grover across the abdomen, fatally wounding him. They had quarreled over a pig.

Creates an Appetite.

LIMA, O., June 2, 1895.—My mother has used Hood's Pills for constipation and has found them to be the best that she has ever taken. She has also used Hood's Sarsaparilla and it has given her a good appetite.

MARY HOWARD.

Hood's Pills cure sick headache, indigestion.

NOT CONFIRMED.

Reported Loss of an Excursion Steamer on the James River, Virginia.

NORFOLK, Va., July 16.—The steamer Ariel of the Clyde line, which left here at 8 p. m. with a large number of negro excursionists for Petersburg, is reported sunk up the James river. Nothing definite can be learned here.

Doubted at Petersburg.

PETERSBURG, Va., July 16.—Although the rumor of the sinking of the Ariel was prevalent here, it is given no credence. The James river is very narrow and loss of life could hardly result.

2:30 a. m.—Up to this hour the steamer Ariel has not arrived here and no tidings whatever received from her since her departure from Norfolk at 8 p. m. The trip should have been made in about seven hours.

FEUD PROBABLE

As the Result of a Fatal Duel Near Elkton, Ky.—Survivor Arrested.

ELKTON, July 16.—S. H. Duval shot and fatally wounded Louis Butler near Allegree. The men had a quarrel at a church meeting but there was no serious trouble. Sunday they met again and Duval got the drop on Butler, who was also armed. Butler's physicians say he can not live.

Duval was arrested and brought to this place and is now under guard.

Butler has several brothers, and as both families are of fighting stock, the affair has not yet ended.

Are They Forgeries?

URBANA, O., July 16.—The law firm of Leedom & Lewis have received bonds to the amount of $50,000 that are being investigated. They are held by Pittsburg, Boston and Columbus parties. Ten thousand are Tippecanoe City school bonds and $10,000 are Adams county bonds. Some are bonds issued by Superior, Mich., and some by Argentine, Kan. They are all thought to be forgeries.

Negroes Excented.

COLUMBIA, S. C., July 16.—The negroes in Greenville are greatly excited over the lynching of Ira Johnson, whose lawyer says he could have established a clear case of self-defense. They want to lynch a white prisoner in jail, charged with the murder of a white man, for retaliation.

Paper Advanced.

NIAGARA FALLS, July 16.—The paper manufacturers and paper bag makers, at a convention held here decided to advance drab paper from $6\frac{1}{4}$ to $6\frac{1}{2}$c a pound and floursacks from $18 to $19 a thousand. These changes are to take place at once.

Will Discuss Silver.

ST. LOUIS, July 16.—By a vote of 12 to 2 the Democratic central committee in session yesterday at the Southern hotel decided to call a state silver convention will be held at Pertle Springs. The date fixed was Aug. 6.

Visiting His Old Home.

WATERTOWN, N. Y., July 16.—Hon. J. Sterling Morton, secretary of agriculture, is at Adams, this county, visiting the place of his birth and the scenes of his boyhood for the first time in 50 years.

Postoffice Robbed.

VERSAILLES, Ky., July 16.—Burglars entered the postoffice at Midway, blew the safe with dynamite and secured $600 in money and stamps.

Forest Fires Extinguished.

TRAVERSE CITY, Mich., July 16.—Heavy rains, the first in six weeks, have effectually extinguished all forest fires in this section.

Peter Hazel, a Chicago planing mill owner, cut his wife's throat because she remonstrated with him for getting drunk and then ended his spree by driving the bloody blade into his own neck.

Ira Johnson, colored, who killed a young man named Longford at Piedmont, S. C., was taken from the jail by a mob, hanged to a tree at the edge of town and his body riddled with bullets.

The mysterious disease which has been carrying off cattle in Henry and Jefferson counties, Kentucky, is now clared to be Texas fever. The disease is under control and no spread is anticipated.

On a crowded street in Memphis Dr. John White shot and killed Jacob Rothschild. White refuses to make any statement. A woman is said to be at the bottom of the murder. Both men have families.

Near Leon, Ky., William and Gabe Porter, Henry Parsons and two Collins boys got into a fight in which knives and rocks were freely used. William Porter was probably fatally cut and Parsons badly wounded by flying rocks. The timely interference of bystanders prevented a murder.

In the vicinity of Boquet, Westmoreland Co., Pa., almost any one can tell you how to cure a lame back or stiff neck. They dampen a piece of flannel with Chamberlain's Pain Balm and bind it on the affected parts and in one or two days the trouble has disappeared. This same treatment will promptly cure a pain in the side or chest. Mr. E. M. Frye, a prominent merchant of Boquet, speaks very highly of Pain Balm, and his recommendations have had much to do with making it popular there. For sale by Melville Bros., next to P. O.; C. W. A Pioneer.

The patient had just described his symptoms, and the physician grasped him by the hand.

"My dear fellow" he cried, "I cannot tell you how delighted I am that you should have come to me. You have a disease which has baffled the profession for years. Hitherto it has always proved fatal, and I've always wished to experiment on it myself. If I save you I shall be immortal; and if I don't—what's the odds?"—*Harper's Bazar.*

Quite by Surprise.

Cholly—"How would you—aw—like to own a little—aw—puppy, Miss Moneyful?"

Miss M.—"This is so sudden, Mr. Softleigh!"

Last summer one of our grand children was sick with a severe bowel trouble. Our doctor's remedies had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief. We regard it as the best medicine ever put on the market for bowel complaints.—Mrs. E. G. Gregory, Frederickstown, Mo. This certainly is the best medicine ever put on the market for dysentery, summer complaint, colic and cholera infantum in children. It never fails to give prompt relief when used in reasonable time and the plain printed directions are followed. Many mothers have expressed their sincere gratitude for the cures it has effected. MARSHAL MYERS.

Well Known Upper Sandusky Officer Arrested.

One day last week Mrs Sarah Jane Ott, of Upper Sandusky, was given $100 to keep over night by Mille Snyder. Next morning she returned but half, claiming the rest for board. Miss Snyder claimed she owed no board, and appealed to Marshal Myers, who went to Mrs. Ott, procured the money, and taking her before Mayor Ingard on a warrant, secured her dismissal, forty dollars being retained for costs.

Yesterday Mrs. Ott had Mayor Ingard, Marshal Myers and Justice New all arrested on the charge of blackmail, alleging that she was intimidated into giving them forty dollars, and that they had no right to it Justice Moffett placed them under $500 bond each, and a hearing will be had Thursday. The officials say that they will have no trouble in proving regular proceedings.

What the Delphos Team Says About the Game With the Stars.

The Delphos *Herald* copies the account of the game between the Lima Stars and a Delphos team published in a Lima paper, in which the former gave a glowing account of a ten inning game The *Herald* says:

From the tone of the above some of the Asteroids must have gotten a few extra points on themselves to misrepresent the facts of the game to the TIMES-DEMOCRAT man. There were only nine innings played, and Cook struck out three men instead of eleven. Powell and Hunsaker made a good showing with the stick that equalled either Blackman or Daley, and besides the Stars only won the game in the ninth inning by a streak of hard luck striking the Colts. The Stars were outplayed in every position.

Mrs. Rhodie Noah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent to me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sidley, Sidney, Mich. For sale by Melville Bros., next to P. O.; C. W. WITH DYNAMITE

An Attempt Will Be Made to Secure Cuba's Freedom.

WILL USE BALLOONS AND ROCKETS

If Experiments Prove Successful the Spanish Troops Will No Doubt Be Treated to a Display of Fireworks Which They Will Not Relish Seeing Will Avoid All Neutrality Laws.

NEW YORK, July 17.—Dynamite is to be employed by the Cuban revolutionists; not in bombs of the anarchistic sort, but in a novel and decidedly wholesale manner.

The plan is for a balloon dynamite expedition to Cuba. Harry Leonard, secretary of the Cuban Society Libre club, whose engineer is now experimenting with dynamite, said in an interview that they had made a careful estimate of the cost of dynamite balloons to be used in raining high explosives on Spanish forts and cities in Cuba.

The balloons are to be employed only for floating dynamite cartridges to great heights, then dropping upon the point of attack. After describing the cartridges to be carried, Mr. Leonard said:

"Our experts have combated many opinions as to the explosive force of dynamite, but all authorities agree that the force of dynamite is downward, and that a comparatively small amount, whether falling upon a fort or a city, will do as much execution to the structure beneath as if it were confined in a drilled whole in the foundations.

Dynamite Rockets.

"An important auxiliary to our balloon corps is the military dynamite rocket, recently perfected. These terrible weapons are in three sizes. No. 1 weighs one and a half pounds, No. 2 weighs three pounds, No. 3 weighs five pounds—including the rocket and its machinery. Each rocket carries a stick of dynamite weighing one-half pound, three-quarters of a pound and one pound, especially manufactured for us to explode upon the slightest concussion. The rockets can easily be shot a distance of half a mile. They are formidable weapons and must produce a tremendous execution, whether shot into forts or into cities.

"A private test of our various dynamite war machines is to be made in the presence of members of our Libre club in New Jersey within a week. It is to be the final test and if all goes well the club will vote for the dynamite expedition to start immediately. We have a swift-sailing boat in readiness."

To avoid conflict with the neutrality laws, or with President Cleveland's proclamation, all war supplies will be shipped to South American ports and transshipped at leisure to Cuba.

The Libre club has raised altogether $50,000. Of this sum $35,000 was paid for fitting out the expedition sailing by the Marie Sepello, which landed her cargo of ammunition and guns June 25. The supplies were received by Captain Carlos Santos Corrier. He has since been made a colonel for his bravery.

CROP CONDITIONS.

Too Much Rain In Some Sections and Not Enough In Others.

WASHINGTON, July 17.—The weather bureau in its report of crop conditions for the week ended July 15 says:

Drouth has been broken in Iowa and partly relieved in Wisconsin and southern Minnesota, but continues in Ohio and with great severity over the southern half of Michigan. Excessive rains have delayed threshing in Missouri, Kansas, northern Texas, Kentucky and Tennessee and caused grain in shock to sprout.

Cotton has been injured by too much rain in the lowlands of southern Missouri, Arkansas and northern Texas and has suffered to some extent in Oklahoma and Tennessee. Georgia, Alabama and Mississippi report improvement over the previous week in the condition of cotton, while in North Carolina the crop continues in poor condition. In southern Texas rain would prove beneficial.

Corn needs rain in Ohio, northern Indiana, southern Michigan, Wisconsin and North Dakota, and would be improved by rain in Nebraska, where the blades are beginning to roll. In the southern states the finest crop for years is promised.

The outlook for tobacco in Maryland is excellent and in Kentucky the crop is improving rapidly; it is doing well in Tennessee and Missouri and is being cut in the Carolinas.

Frost on Tuesday morning caused slight damage in Wisconsin.

OHIO DEMOCRATS.

Arranging For the Springfield Convention. Will It Be Campbell?

SPRINGFIELD, O., July 17.—The committee appointed by the Democratic state central committee to arrange for the Democratic state convention to be held here next month, met here last evening. It consists of Chairman A. W Smalley, Joseph Dowling of Dayton and W. R. Burnet of this city. It was decided to hold the convention in the city hall, which seats 1,800 people, instead of the Whiteley auditorium, as originally intended.

While here Mr. Dowling, who stands very close to ex-Governor Campbell, gave a significant interview. He said Campbell would be the nominee for governor. The ex governor, he said, would be chairman of the Butler county Democratic convention on the 27th, at which time the Campbell boom would take upon itself definite shape.

STABBED HIS RESCUER.

A Railway Man's Reward For Saving a Tramp's Life.

PITTSBURG, July 17.—Charles C. Keetley, living on the South Side, and employed as a railroad flagman, was brutally and perhaps fatally stabbed by an ungrateful tramp The latter was asleep on the bumpers of a car about to be moved, and his life was saved by Keetley's pulling him off just in time to prevent his being crushed under the wheels. Keetley put down his lantern to get the man off. Afterward he stooped down to pick it up, when he was attacked by the tramp and stabbed twice through the back Then he was stabbed in the breast. His would-be murderer fled and has not been captured.

DEPRAVED GIRL.

Poisoned Her Foster Parents to Secure Their Property.

SEYMOUR, Ind., July 17.—Dollie Belknap, 14, adopted daughter of Fleming Sarver and wife of Uniontown, attempted to poison them on Saturday. When accused of the crime she at first denied it, but afterwards confessed and produced a letter signed by her lover, Hays Robins, the son of a wealthy family in that neighborhood, urging her to commit the deed in order to inherit from her foster parents, so that she and her lover might marry and "have a good time." Mr. Sarver died Monday and Mrs. Sarver is not expected to live. They are 60 years old.

WILL SHE BE ELECTROCUTED?

First Woman Convicted Under the New Law In New York.

NEW YORK, July 17.—The trial of Maria Barberi, in the court of general sessions, before Recorder Goff, for the murder of her lover, Dominico Cataldo, has been concluded, the jury bringing in a verdict of guilty of murder in the first degree. The prisoner was remanded until tomorrow for sentence. She is the first woman in this state condemned to death since the passage of the law making electrocution the penalty.

Chance For Settlers.

SPOKANE, Wash., July 17.—Lewiston, Ida., has gone wild over the receipt of a telegram from Senator Dubois at Washington which contained the welcome news that by Aug. 1 the Nez Perces Indians would receive their money from the government for their lands. This means that $626,222 will shortly be put into circulation, and that within six weeks the great Nez Perces reservation, the garden spot of Idaho, will be opened for settlement.

Says It Was a Mistake.

MILWAUKEE, July 17.—The giving of testimony for the defense in the case of Robert Lascomb, charged with the murder of Emil Sanger, was begun in the municipal court Lascomb was placed in the chair and told his story of the shooting. He said on the fatal night when Sanger demanded that the door be opened he had a cane which he (Lascomb) mistook for a gun and he shot accordingly.

GOLD OR SILVER?

R. G. Horr and "Coin" Harvey Now at It In Chicago.

CHICAGO, July 17.—There began yesterday afternoon at the Illinois club what promises to be one of the most noteworthy forensic battles; the issue is gold and silver for the currency, and the champion of the one, Roswell G Horr of Maine, of the other, W. H. Harvey of Chicago of "Coin's Financial School" fame. The debate which will be delivered in chunks of about 1,000 words each is expected to continue eight days. To Mr. Horr was accorded the privilege of opening. He was obliged to confine his preliminary arguments to 1,000 and was answered by Mr Harvey to the same extent Then the Maine congressman replied and was again followed by the expounder of free coin.

After this both men stood ready to answer any question which might be propounded to them by members of the audience. The debate took place in the assembly room of the Illinois club. The room was fitted up like a small amphitheater, but there was seats for only 200 persons. Admission was by card only

Dr. Eddmon Acquitted of Murder at Bowling Green.

BOY SHOOTS HIS LITTLE SISTER

While Fooling With a Gun Watchman Shot From Ambush About Fifty Cases of Smallpox In the Upper Ohio Valley Since March Chew of Tobacco Causes a Murder Buckeye Briefs.

BOWLING GREEN, O., July 17.—The argument in the Peany murder case closed shortly after 3 yesterday. Judge Melhorn's charge to the jury was manifestly in favor of the accused, and when the jury retired at 5 o'clock few persons believed that there would be any other verdict than acquittal. It was 6 o'clock when the jury arrived at a verdict of not guilty. The audience showed such enthusiasm at the announcement that the bailiffs had considerable difficulty in restoring order. The case against Mrs Eddmon was stricken from the docket.

SHOT FROM AMBUSH.

Watchman In a Glass Factory at Bowling Green, O.

BOWLING GREEN, July 17.—A dastardly shooting affair happened here over which the good citizens of the village are greatly wrought up. John Speith, the night watchman at the Crystal City glass factory, was shot and badly wounded. Speith was walking on the railroad track in front of the building when some unknown person who was hiding in a patch of weeds not far distant, fired a large revolver or a rifle, striking Speith in the ankle, fracturing the limb. Who the person could have been is not known. Suspicion rests on a desperate negro who resides not far from the factory and who was caught by the nightwatch not long ago stealing fruit jars.

PLAYED WITH A SHOTGUN.

As a Result He Fatally Wounded His Eight-Year-Old Sister.

CRESTLINE, O., July 17.—Clinton Stofer, 14, and a son of Dennis Stofer, residing near Ontario, four miles southeast of this city, while engaged in play with his sister Matilda, 8, got hold of his father's gun, which accidentally discharged while in his hands and the full contents of the load took effect in the little girl's leg, fearfully mangling and lacerating it.

Dr. Beal of Ontario and Dr. Bennet of Crestline were called and amputated the injured member near the hip joint, but owing to the long time intervening from the time of the accident until medical aid was reached the loss of blood had so weakened the child that she died in a few hours after the operation.

FIFTY CASES OF SMALLPOX

In the Upper Ohio Valley Since Last March—Some There Now.

BELLAIRE, O., July 17.—The secretary of the state board of health, Dr. C. O. Probst of Columbus, was in Bridgeport yesterday examining into the smallpox cases in Ætnaville, O. He pronounces them genuine cases of smallpox. A meeting was held at Bridgeport by the board of health of that place and Martin's Ferry, which adopted the strictest quarantine measures, and every precaution will be made to prevent its spread. About 50 cases of this disease have appeared in this section of the Ohio valley since last March.

Right of Way Asked For.

ZANESVILLE, O., July 17.—Ex-Auditor Patterson, A. W. Evans and L. W. Doane of this city have presented a petition to the county commissioners for a right of way to construct an electric car line on the national pike west from this city to the county limits. They propose to build the line to Hebron, there to connect with a line projected by Columbus capitalists. They have secured the consent of the majority of the property holders along the proposed line.

Want to Extend the Road.

WARREN, O., July 17.—The Trumbull Electric Railroad company has petitioned the county commissioners for a franchise to extend its line from this city to Leavittsburg. A park along the Mahoning river at the latter place will be the terminal of the extension. It is expected that within a few years a Cleveland line will connect with the Trumbull people's Leavittsburg branch.

Alleged Burglar Arrested.

LANCASTER, O., July 17.—On a telegram from County Detective Sullivan of Erie, Pa., Ed Youngs, here with Archie Rice's stable of running horses, was arrested on two distinct charges of burglary and larceny, and will be taken back to Pennsylvania. Youngs says he is innocent and expresses a willingness to go without requisition papers.

Murder at an Infirmary.

URBANA, O., July 17.—On July 5 at the infirmary of Champaign county, Charles Redmond, 22, inmate, knocked down and kicked Dennis Kennedy, 80, an inmate, so as to cause his death yesterday. Redmond is in jail charged with murder.

Murder Over a Chew of Tobacco.

GALLIPOLIS, O., July 17.—William Patton was murdered in cold blood near Crown City by Henry Wilson. Wilson asked Patton for a chew of tobacco. Patton replied that he had none, and Wilson drew a revolver and shot him dead.

Narcoti-Cure

Cures the Tobacco Habit In 4 to 10 Days, or Money Refunded.

Use All the Tobacco You Want Till Your "Craving" is Gone.

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves, and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of $5.00 a bottle, and one bottle cures.

Money refunded if a cure is not affected when taken according to directions.

PROF W. N WAITE, Of Amherst, Mass., Chewed Tobacco for 46 Years, and was Cured by Narcoti-Cure.

AMHERST, MASS., February 8, 1895.
THE NARCOTI CHEMICAL CO., Springfield Mass
Gentlemen.—Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10 cent plug a day besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took NARCOTI CURE, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more, smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in flesh, and feel better than I have for a long time To all who wish to be free from the tobacco habit, I would say, use NARCOTI-CURE
Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for book of particulars free, or send $5.00 for a bottle by mail.

Chicago is claiming a population of 2,000,000. It is one thing to claim to have; it is an entirely different thing to have. Chicago is liable to claim anything.

The strange vicissitudes of fortune are exemplified by the story that the household furniture of Mrs. Kate Chase Sprague is about to be sold for debt. Her property is all mortgaged, and she is hopelessly involved in financial entanglements from which there appears to be no escape. Where she once reigned as a social queen she is now virtually penniless and oppressed with obligations she is unable to meet.

Senator Sherman tells the New York *Herald* that he cannot be a candidate in 1896; that he is too old; that Reed is out of the contest because he comes from Maine, which is too far East; and that his candidate is McKinley. Maine will always be too far East in the Ohio idea, and Indiana will be too far West. Sherman's pronouncement sounds very like a bequest of the Presidential mantle, which he carefully entails to the Ohio family. What fun there will be in the convention when Reed, Harrison and the other slighted heirs shall turn in to break the will.

Mississippi river improvements cost the Federal government $2,794,205 during the past fiscal year, and the State and local authorities spent a vast amount of money in addition; and yet the "Father of Waters" is as completely master of the situation as ever. Hardly a year passes without leaving the people of the Mississippi Valley sad memories of the destructive work of the overflowing river; and great as are the expenditures upon efforts to control the mighty river, they are far less in amount than is the flood damage of each season. There is no engineering problem before the world to-day of such importance and so fraught with difficulties as the task of mastering the treacherous waters of the Mississippi river.

While New York physicians are discussing the killing powers of electricity as applied to murderers, a case has occurred which shows that electricity has the power of restoring animation in some cases of apparent death. W. W. Paddock, of Wolcott, N. Y., has been a sufferer from heart disease for years. Last Wednesday, while walking from his store to his house, he fell to the ground apparently dead. The doctor could feel no pulse nor hear any heart beats. He applied an electric battery to the supposed dead man and he recovered and is now doing well. In attempting to resuscitate persons suddenly stricken with apparent death, the electric battery should never be neglected. There is a vitalizing principle in the subtle spark which may quicken to action the suspended machinery of the human heart. Without the application of electricity in the case under notice Mr. Paddock would have been buried.

An ancient and venerable theory held in high esteem for many years by advertisers in dull seasons, is that there was no use to advertise in dull seasons, that there was no business to be obtained and that, therefore, it was a waste of time and money to try to get it. This was a good theory as long as everybody believed it. But along came a shrewd fellow who did some thinking out of the rut. He had a new theory. It was that there was always business, that people had to eat things and wear things in summer as well as spring, autumn and winter, and that no matter how much or how little business there was, the widewake man would get the lion's share of it if all the other men were asleep. He put his theory into practice and it worked beautifully

The real truth about the matter is that the right kind of advertising pays It pays all the time, winter and summer, spring and autumn. The man who doesn't advertise is practically shutting up shop. His business gets dry rot. Advertising, when placed in the columns of as widely read medium as the TIMES-DEMOCRAT puts snap and life into trade. It makes business come, and profits pour in. And the wide-awake, progressive, up-to-date, keen business man knows it.

The trial of a big electric locomotive by the Baltimore & Ohio railroad at Baltimore, yesterday, seems to have been a great success The machine was built to pull trains through the long tunnel, and has been making preliminary trials for several weeks, to get itself in proper working condition, but yesterday was the first time it hauled a heavy train. The train it pulled consisted of a consolidation steam locomotive, weighing 80 tons, 24 freight cars loaded with coal and lumber, a yard engine, weighing 50 tons, and an empty caboose. This was one of the regular heavy freight trains of the Baltimore and Ohio Company. The electric locomotive was coupled to the train at the electric power house, south of Camden station, and in 5 minutes and 20 seconds uncoupled at North avenue, having made the run through the tunnel, pulling steam locomotives, freight cars, coal and lumber, a distance of 7,350 feet.

This is the first application of electricity to heavy railroad work, but it will not be the last. This engine is intended to do all the tunnel hauling at Baltimore, but the use of electricity for longer pulls may be expected, now that a fair start has been made.

Beauty, Wit and Popularity.

The way for a woman to be considered beautiful is to convince others that they are lovely. The way to be accounted wise is to be silent when wisdom speaks; the way to be thought witty is to appreciate others' attempts at witticisms The popular woman is she who makes every other woman consider herself popular.—*New York World*

What Our Druggists Say About Hood's Sarsaparilla

Local Dealers Sell More of Hood's than All Others.

"No other remedy has ever attained the place in the estimation of the public which has been reached by Hood's Sarsaparilla. It must possess true merit as a blood purifier in order to retain its increasing popularity. The sales of Hood's Sarsaparilla exceed those of all other similar preparations and I often hear it praised at my counter." WILLIAM TIMBERLAKE, Enterprise Drug Store, M. L. Allen, Manager, Lima, Ohio.

"I am, on general principles, adverse to expressing my views, pro or con, in respect to any proprietary article, but in the light of Hood's Sarsaparilla being the product of a brother apothecary, will say that Hood's Sarsaparilla has secured a place in public confidence never attained by any proprietary medicine that I have handled during the long years in the drug trade. It must possess true merit as a blood purifier to retain its increasing popularity. The sale of Hood's Sarsaparilla exceeds that of all other similar preparations, and it is the only blood purifier prominently before the public eye today. Its praises are proclaimed at my counter often, by those who have received benefit." FRED SCHEIBENZUBER, 216 No. Main St., Opposite Court House, Lima, Ohio.

Reader, did you ever take SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" Everybody needs take a liver remedy. It is a sluggish or diseased liver that impairs digestion and causes constipation, when the waste that should be carried off remains in the body and poisons the whole system. That dull, heavy feeling is due to a torpid liver. Biliousness, Headache, Malaria and Indigestion are all liver diseases. Keep the liver active by an occasional dose of Simmons Liver Regulator and you'll get rid of these troubles, and give tone to the whole system. For a laxative Simmons Liver Regulator is BETTER THAN PILLS. It does not gripe, nor weaken, but greatly refreshes and strengthens.

A Remarkable Cure.

A cure for dropsy has evidently been discovered by a Spanish physician now in this city A patient in one of the leading hospitals had been in his bed for seven months suffering from the disease, and 12 physicians who examined him asserted he could not recover and that death would soon relieve him of his sufferings Then comes along this Spanish physician, who tells the patient that he will have him on his feet in 30 days The 30th day came on July 1, but the patient did not go out On July 2 he went out of doors and walked a block Now he is out as cured. It is a wonderful case.—*New York Evening Telegram.*

GREAT MID-SUMMER CLEARANCE SALE!

The Long Looked for Opportunity Has Come. Your Waiting Has Not Been in Vain.

The Keenest Cut, The Cleanest Sweep on Record!

HONOR BRIGHT.

Without blare of bugles, lurid lights or pyrotechnic of words, we put the plain facts plainly before you. The policy of our house, as you all know by experience, is to make each season stand on its own losses Take the bitter with the sweet. We have passed the profit making period and entered upon a season of money losing. The quicker the agony is over the better we will feel, therefore this appalling cut in prices is as deep as it is clean, as general as uncompromising, as broad as impartial. Thousands of dollars of matchless outfitting for MEN and BOYS are now to be ruthlessly sacrificed on the altar of stern necessity at prices never before quoted in good faith for goods of equal merit by any house between oceans. There is a wide distinction between the wholesome integrity of this sweeping Clearance Sale and the fakes and nondescripts who by wily methods and plausible tales are angling for your trade, but dare NOT, can NOT

A FEW WORDS

Of warning to prospective purchasers: In a sale like this the choicest styles go first always, as we give the unreserved choice of the entire stock at prices advertised. It is only natural, the first comes picks the finest. They are entitled to their pick and they shall have it, hence the wisdom of making an early choice

There's no necessity to enter into a detailed description of these suits—cold, inanimate type would fail to convey idea of their varied beauties, the chaste effects, the faultless styles, the graceful fitting properties and the artistic ensemble which stamp them with the seal of superiority. There are no finer goods made than we carry. Our patrons demand the best and they get them always.

An Ohio Southern Passenger Train's Miraculous Escape.

The north bound passenger train, due here on the Ohio Southern road at 12:30 o'clock, met with a bad accident at the Erie crossing, two miles northwest of Springfield, yesterday. The passenger train was forty-five minutes late, and engineer Jordan was trying to make up the lost time. An Erie freight had the crossing, and the target man saw that Jordan did not have control of the engine, and turned the switch forcing the passenger train onto the siding. The Ohio Southern train went off and the engine turned upside down. Engineer Jordan remained at his post and was uninjured. The fireman jumped. There were sixty passengers on the train, and all miraculously escaped injury.

L. C. C. RACES.

Fast Time and Exciting Contests Last Night.

Sanders Defeated Rumple, and Will Go Against Ed Reel—The Other Events.

About six hundred people witnessed the bicycle races at the Lima cycling track last night, and the events were all unusually interesting.

The first was a one-mile handicap, in which there were about twenty starters. Earle Bressler, with a start of 125 yards, finished first; George Woods, scratch, second; Chas. Rowlands, 150 yards, third, and Guy Folk, 125 yards, fourth. Time—2:25 1-5.

The second event was a half-mile open, paced by W. C. Bell. Fred Burgoyne finished first, Earle Bressler second, and W. H. Crimmell third. Time—1:12.

Chas. A. Black and Harvey Bishop rode a half mile without handle bars black won with ease. Time—1:39.

One-mile open—Geo. Woods, first; Fred Burgoyne second, and Al Richmond third. Time—2:38 1-5.

The fourth event was a mile race between James Sanders and Harry Rumple for the L. E. & W. shop championship. Rumple started out in the pace and rode hard. Sanders tacked onto his hind wheel and followed closely until the back stretch on the second half, when he started around Rumple, and the latter instead of following the pace to the home stretch made a spurt and Sanders again dropped in behind, where he remained until the stretch was reached, when he made a good spurt and finished six or eight lengths ahead. He was immediately challenged by Ed Reel, also of the L. E. & W shops, and will ride another mile with the latter next Wednesday evening.

The last event was a half mile handicap in which there were about twenty-five starters. The riders were all bunched on the finish, which was very exciting. Earl Bressler, with 65 yards start, finished first; Chas. Black, 65 yards, second, and James Sanders, 50 yards, third. Time—1:07.

Fred Burgoyne attempted to beat the track record for half mile, paced, but did not do better than 1:11.

NOTES.

Frank Plaice will start in the races at Detroit Saturday.

Henry Hauenstein left for Detroit this morning, and will remain for the races Saturday.

F. P. O'Dell has challenged Harry Ashton for a mile race, and Ashton has accepted. This race will occur next Wednesday evening.

At the sactioned race meet here July 31st, a gold medal will be given to the winner of the mile handicap. Entries for the races next Wednesday evening must be reported to the racing board before Monday evening.

STREET TALK.

Among the noted guests in the city is Mr. J. W. W. Smith, superintendent of the Aetna Powder Co., of Chicago, Ill., who is visiting his sister, Mrs. W. F. Packard, of 327 north Union street.

* *

The School Board met last night with all members present except Mr. Townsend. A few bills were allowed, together with the janitors' salaries. A motion was made and carried that the schools be opened the first Tuesday in September, but the motion will probably be reconsidered, as the county fair will occur that week.

AMONG THE RAILROADS.

NOTES.

Brakeman Erwin, of the L. E. & W., has returned to work, after ten days' absence.

Engineer Reaver, of the C. & E., is running engine 114 on the Marion local.

Night yard clerk Canada, of the L. E. & W., has resumed his duties, after several weeks' vacation. Otis Diehl, who has been officiating as night yard clerk, has resumed his duties as day caller.

Under a new rule of the Central Traffic Association, party rates may be made for ten to forty-nine people at two cents per mile, and for fifty to ninety-nine people at one and one-half cents. Individual tickets will be issued instead of placing all on one ticket, as heretofore.

Died from Consumption.

The remains of Thos. J. Roach, of this city, who died from consumption in a Toledo hospital, were brought here this morning over the C., H. & D., and the funeral services held from St. Rose's church immediately after. Mr. Roach formerly lived on west McKibben street, and during his residence there lost his wife by the same dread disease. Two small children survive him. The interment took place in the Catholic cemetery.

Was Brought to Lima.

Henry Utzinger, the boy, an account of whose being arrested at Findlay for opening mail, among which was a letter of A. A Scott, of this city, appeared in the TIMES-DEMOCRAT last evening, was brought here by deputy marshal Harmon to be arraigned before Commissioner Halfhill, but as the latter had not qualified, the prisoner was taken to Toledo to be arraigned.

Delayed by a Wreck.

East bound passenger train No. 4, due at 7:20 o'clock, and the Chicago paper train, due at 8:30 o'clock, on the P., Ft. W. & C., were five hours late to-day, by reason of a small wreck near Valpariso, a freight car being off the track.

Extras were made up at Ft. Wayne and came through on the time of Nos. 4 and 6, arriving here about forty minutes late.

From a Findlay Mother.

"Having used Dr. Hand's Colic Cure for my baby, I can fully recommend it. I have used a great many medicines for baby colic, and none have done so much good. I will hereafter use no other remedy for colicky babies.—Mrs. L. Tanner, Findlay, Ohio." Dr. Hand's Colic Cure, Dr. Hand's Teething Lotion and all of Dr. Hand's Remedies for Children sold by all druggists for 25c.

Watch Thief Sentenced—Charged With Attempt to Provoke Breach of Peace.

General yardmaster Hurst, of the L. E. & W., had warrants issued for C. J. Bainer and Wm. Collins last evening charging them with an attempt to provoke a breach of the peace. Collins was arrested late yesterday afternoon and afterwards released to appear before the mayor this morning. He appeared about 10 o'clock, but had been drinking considerable and the mayor ordered him locked up.

Bainer appeared and pleaded not guilty to the charge, and the case was set for hearing to-morrow.

Harry Southerland was the name given by the fellow arrested for stealing Rev. Wallace's watch yesterday. He pleaded guilty, and would have been bound over upon a charge of grand larceny had it not been for the kindness of Rev. Wallace, who pleaded for leniency, and the mayor gave him a fine of $20 and costs and a term of thirty days in the Dayton work house.

When Rev. Wallace and his son Reed overtook the thief, he had seen them approaching and secreted the watch under a piece of bark. When Reed demanded the time piece he denied having taken it, but when Reed drew a revolver he produced the time piece and climbed into the buggy with Rev. Wallace and was taken to the police station.

Cliff McMillen, whom John Yazel charged with assault and battery, was given a hearing this morning, and was fined $1 and costs.

JOINED IN MATRIMONY.

Marriage of Mr. Elzie Kennedy and Miss Flynn.

A quiet and beautiful wedding was solemnized last night at 6:30 o'clock at the pastoral residence at McKibben and West streets, Rev. L. A. Brady officiating. The principals in this happy union were Mr. Elzie Kennedy, son of ex-policeman and Mrs. J. B. Kennedy, of Second street, and Miss Lizzie, only daughter of Mr. and Mrs. Frank Flynn, also of Second street. Mr. Peter Flynn, a brother of the bride, was best man, and Miss Rue Black, of this city, bridesmaid. The bride looked beautiful in a suit of white serge, trimmed in white silk lace. The bridesmaid was attired in a beautiful suit of satin. The groom and best man wore the usual black. A bountiful wedding supper was served at 10:30 o'clock at their own home, 721 south Pine street, where the groom had a house furnished for their reception. They were the recipients of a large number of beautiful and useful presents. Both are popular young people of South Lima who have friends without number, who wish them all the happiness that married life affords.

ILLINOIS MINE

Hundreds Offer to Go Voluntary Slavery

HAVE SUFFERED FOR

And Will Do This for the of Their Family

THE OFFER NO DOUBT A

Be That as It May, the Mayor of Valley, in Response to an Inquiry, He Believes Over One-Half the There Would Be Willing to Ironclad Contract of the Character scribed—Let Us Hope It Will Come to This.

MASSILLON, O., July 19—The of this vicinity were greatly surprised a few days ago to read in the papers a telegram from Spring Ills., stating that 300 miners had to go into voluntary slavery if they needed for themselves and families comfortable homes, plenty of food and serviceable clothing.

The telegram continued. "The present the best element among the ers, and are willing to serve them out a cent of wages. They only they will sign an ironclad con During the past three years they suffered for the necessities of life rather than see their families suffer more they will become serfs."

As it was believed the publication port had been overdrawn for the purpose of creating a sensation an inquiry sent to Mayor Delmagro of Springfield whose reply is as follows: "I am unable to say whether our miners would accept such a proposition or not, but firmly believe that over one half of them would be willing to sign an ironclad contract of the character described."

THOUSANDS OUT OF WO

Mills Unable to Run on Account of Water.

OSHKOSH, Wis., July 19—The government has ordered all use of water power on the Fox river between Appleton and Depere to stop. The order affects great many mills and industries and throws more than 3,000 men out of employment. This is to continue until the water rises sufficiently to flow over the crest of the Neenah dam, which will not be for several months. Mayor Hollogg has received a telegram from Assistant Secretary of War Doe in the latter stated that he would be in Oshkosh in a few days and would meet the navigation interests. It is believed here that an effort will be made to get the men to agree to some compromise whereby the mills may be allowed to use water and resume operations.

BATTLE IN FORMOSA

Between the Jap Forces and the Flags—Japs Retreat.

LONDON, July 19.—A dispatch to the Times from Hongkong says that a battle of serious fighting between the Japanese and Black Flags in Formosa has been received from Formoy. The battle took place 60 miles from Tapee. The Black Flags in almost overwhelming numbers fought with the utmost bravery and stubbornness, and only the shelling of the heavy guns of the Japanese saved the latter from utter disaster. After the Japanese were compelled to retreat to the northward. The Black Flags, according to report, are now advancing upon Teckham, 50 miles west of Formosa, where renewed fighting is pending.

Dealing With Corruption

SPRINGFIELD, Ills., July 19.—Legislative sensation yesterday was the introduction in the house by Lindley (Rep.) of two bills to deal with bribery. One provides for a $5,000 fine and imprisonment in the penitentiary five years of anyone tampering with or changing bills that have passed the general assembly. The other provides like punishment for any legislator accepting a bribe, and the same for any person offering a legislator a bribe.

Revolution Spreading

LONDON, July 19.—A dispatch from Sofia to the Times says that the Macedonian papers there have alarming reports of Macedonia. It is asserted that a revolution is spreading and that the Turks and three villages have been burned by the insurgent bands, who are now fully operating in the district of Demitzsa, Meleshevoa and Dranitza. It is stated that the Turks have sent a considerable force of Kurdish cavalry into the first named district.

Stage Robber Sentenced

UKIAH, Cal., July 19—Dr. Burnham, the prominent Baptist clergyman on trial for stage robbery was sentenced to 12 years in Folsom prison. He planned the robbery in which Cashier who was in the deacon's employ and the principal. They divided $4,000. Hilton, the principal, received 10 years.

The Ecuador Insurrection

SAN FRANCISCO, July 19—Advices just received in this city from Ecuador states that General Alfaro, the insurgent chieftain, whose headquarters are at Guayaquil is preparing to advance with 10,000 men on the capital of the republic which is the stronghold of the conservative government.

Ship Disabled

SAN FRANCISCO, July 19—Telegraphic advices from Rio Janeiro say that ship Bohemia, from Portland for San Francisco, was obliged to put into port at Rio Janeiro for repairs. She had lost her jibboom and foremast.

Chinese Refuse to Begin

SAN FRANCISCO, July 19—The Chinese here have refused to begin but no move has been made to hasten their deportation. The customs and internal revenue officials have instructed their respective duties in regard
